■ LinkedIn Job Hack – 2 Powerful Tricks ■

■ Trick 1: Find Jobs Posted in the Last 24 Hours

- Open LinkedIn and go to the Jobs section.
- Enter your job role (example: JavaScript Developer).
- Select your preferred location.
- Click on All Filters.
- Scroll to Date Posted and select Past 24 hours.
- Click on Show results.

■ You will see only jobs posted in the last 24 hours.
■ These jobs usually have fewer applicants.

■ Trick 2: Find Jobs Posted in the Last 1 Hour (URL Hack)

- Search for a job normally on LinkedIn.
- Apply your preferred filters like location and experience.
- Copy the job search URL from your browser.
- Find f_TPR=r86400 in the URL.
- Replace it with f_TPR=r3600.
- Press Enter to refresh the page.

Example URL:
https://www.linkedin.com/jobs/search-results/?distance=25.0&f;_TPR=r3600&keywords;=javascript%20developer

■ Shows jobs posted within the last 1 hour.
■ Very low competition.
■ Higher chance of recruiter response.

■ Pro Tip

Apply early, not everywhere. Early applications get more visibility.
